

*Next time you are at the Briarcliff Manor Library, we invite you to have a seat in the upstairs space and enjoy the display...*

## **Alice Goldstein Architecture and Home Design Collection**

These beautiful, richly illustrated books, gifted in memory of longtime Briarcliff Manor resident Alice Goldstein, will transport and inspire you.

We've just added several new books to the collection that showcase the latest in home design. Subjects include sustainable choices in building and furnishing, incorporating your personal style into your décor, home staging for maximum resale value, cottage and cabin ideas, and minimalist strategies for reducing clutter and increasing calm.

### **[Here's a Link to the Newest Purchases](#)**

We are grateful to Stanley Goldstein for making the collection possible. Alice and Stanley Goldstein lived and raised their family right here in Briarcliff. When Alice passed away in 2019, a group of Stanley's friends, the "Briarcliff Roundtable," surprised Stanley with a collection of architecture books here at the Library, in memory of Alice. Stanley, always a passionate Library user and generous supporter, set up a fund, so we can add to the collection and update it every year.

Come look through these gorgeous volumes and you may find a new vision for your living space.
